

Commissioning (Cx) Oversight

OUR APPROACH

AFG's commissioning oversight services ensure that all systems and components of a project are thoroughly designed, installed, tested, operated and maintained to meet client requirements. As part of AFG's comprehensive construction and project management services, AFG offers independent Cx review and oversees delivery of the project through all phases of construction.

AFG has successfully managed more than \$10 Billion in renovation and construction projects by offering a full range of program, project, and construction management services. Our highly experienced Cx team utilizes a wealth of knowledge to provide key oversight on design and construction projects in each phase, offering independent review for your design and construction staff.

Why This Works

- Highly experienced Cx/CxA team
- Independent review of the design and construction team
- Effective communication with stakeholders that builds trust and proactively addresses challenges
